## P857 BLOWER

The P857 is a two lobe, positive displacement blower designed specifically for the unloading of dry bulk road tankers – the compact and reliable solution for all you dry bulk offloading needs.

Manufactured for Paragon by

Durable taper lock also guarantees easy assembly.

Internal breather - reduces water contamination of oil.

Rotor profile with constant gap.

Complete cast iron body and side plates.

Coated inner wear sleeves. Leakage prevention due to anti-corrosive material. Easy removing for maintenance.

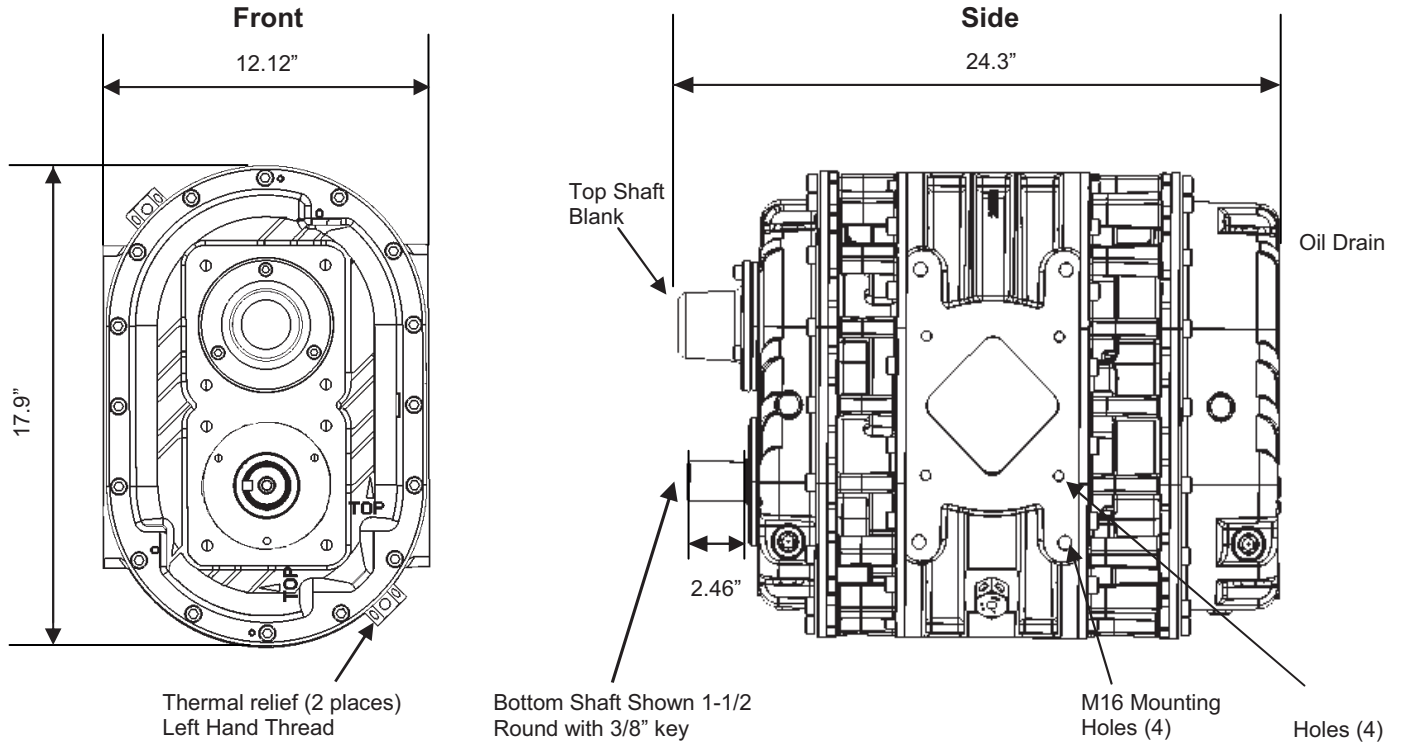

Simplified assembly. Easier profile setting.

Specially designed for hydraulic adapter.

Twin drive shafts - allows for universal bi-directional mounting.
